Door Style and Color

E22

White Shaker has been a very popular door style and color in recent years and continues so. Not all white color is equal. We have carefully selected a “warm white” for our White Shaker vs. a cool white. When use with the correct LED lighting, the “warm white”, will appear a smooth white. It just looks beautiful.

E41

Grey Shaker follows White shaker in popularity. Our medium grey color is just the right blend for the contemporary look that customer demands today.

E35

Grey Maple is a transitional door style for customer wants a contemporary look with a bit traditional flare. It has a square raised center panel.
